National DIPG Awareness Week!

May 22-29, 2016

Chad & Jack's

D.I.P.G. Resolution

Tell your Reps to support:

HRes586

Prioritize children for cancer research funding!

www.JacksAngels.org

"Because every child is a life, not a number."

HRes586

HRes586 raises awareness for DIPG and childhood cancers in general, designating the 4th week of May as National DIPG Awareness Week, giving hope to the kids fighting hard right now to stay alive and finally honoring the thousands of young children who have faced death bravely with scarce attention for many, many years.

Please encourage friends and family across the country to ask their Representatives to sign it; time is not abundant for DIPG children. There are easy instructions at www.hres586.com.

THANK YOU.

THE IMPORTANCE OF ADVOCACY

Brain tumors are the leading cause of death in children diagnosed with cancer, yet remains one of the least-funded areas of cancer research. Only 4% of the National Cancer Institute budget for research benefits pediatric cancer as a whole.

Briefly, all the childhood cancer awareness bills in Congress for the last 10 years containing provisions for the analysis of money-flow at NCI* have disappeared. What has been pieced-together from the wreckage is a comprehensive bill called the **STAR Act** with provisions for Survivorship, Treatment, Access, and Research for childhood cancer, minus the accountability factor. The DIPG Awareness Resolution **HRes586**, thanks to our Congressman **Steve Knight**, does what all the other "hard-law" bills do not: it asks for greater consideration for low-survival rate cancers (urgency) and years of life lost (children) with the NCI research grant process..

Katie, Leah, Parker, and Natalie are all NEARBY in our So. Cal Community. Their families have no choice but to watch their children slip away from life.

Hope for Parker

Big thanks to all of our sponsors for the 2016 "Relay for Jack!"

"Relay for Jack!" supports "Jack's 12 Pebbles" research project for DIPG at cc-TDI, the Children's Cancer Therapy Development Institute. Your generous contributions help make this research project possible. Please visit www.relayforjack.org for a complete description, and for the continuing "virtual relay" to raise funds for the project. Please share!

Thank you for your support!
